"THIS IS THE ANSWER"

That is what thousands of Canadians are saying as they learn the meaning of

SOCIAL CREDIT

Are you asking yourself:

"Will there be another depression in the critical years which lie just ahead, as so many predict today?"

"Will our children suffer in the Hungry Forties as we did in the Hungry Thirties?"

The answer is "NO"—providing we establish a Social Credit economy in Canada.

Must we have the degrading poverty that accompanies mass unemployment? Must we have a load of burdensome debt and crushing taxation, and all the other economic evils that have strangled democracy in the past?

Social Credit provides the only satisfactory answer to these serious questions. There is a simple solution to the debt problem. Taxation can be drastically reduced. Unemployment can be a blessing rather than a fearful nightmare. Producers can be paid fair prices and consumers can be provided with ample purchasing power.

Social Credit can make all this possible without creating huge public debts and without regimentation or bureaucratic tyranny.

WILL THERE BE A THIRD WORLD WAR?

In 1928 Major C. H. Douglas warned the Canadian Parliament that Canada would suffer a serious depression by 1929 unless Social Credit was established. In 1934 Major C. H. Douglas, when speaking before the Alberta Legislature, warned that there would be war before 1940 and that only a Social Credit economy could avert it.

SOCIAL CREDIT WILL REMOVE THE CAUSES OF WAR!

Do you want Unemployment, Poverty, Bloodshed again?

SURELY NOT!

You owe it to yourself and to your children to
LEARN ABOUT SOCIAL CREDIT

Social Credit is NOT a Political Doctrine.

Social Credit is NOT a Money Scheme.

Social Credit is a Way of Life Based on
Christian and Democratic Principles.
